## I. STREET PRESENCE PROJECT

### Street Presence – Field work: The main source of field contact of children at VJA Railway Station:

The experience is that when a child is rescued at the earliest, he or she will be less addicted to street life and can be integrated with family easily. The more a child stays on the street, the more he or she gets addicted to street life, making the home integration or any other rehabilitation measures more difficult. Hence, applying the principle 'sooner the better', utmost importance to be given for rescuing the child at the earliest, especially intensifying the coordinated rescue efforts at railway stations as more than 95% of the children travel by train after leaving home to reach different urban centers, hence, the need of intensifying the field presence in Vijayawada Railway Station is utmost important. About 218 children are rescued on an average per month by Navajeevan team that too, more than 95% from Vijayawada Railway Station.

<b>Total :</b>	<b>1465</b>	<b>285</b>	<b>177</b>	<b>8</b>	<b>1935</b>	<b>100</b>
<b>Grand Total :</b>	<b>1750</b>		<b>185</b>			

During the reporting period from Apr 2015 to Mar 2016, a total of **1935 (New Children: 1750 and repeated children 185)** children were weaned away/rescued and registered at Navajeevan Counselling Dept.

The children rescued from street or weaned away from street life are brought immediately to round the clock Open Shelter and provided with basic needs. They undergo in-depth counselling sessions while attending Orientation Camps organized in the shelter premises, before they are home-integrated or joined for any of the rehabilitation processes under formal education or skills training streams.

The yearly data points to the growing number of children leaving home to street. They all lack mainly a 'significant adult' in their lives to understands them and facilitate them to cope up with risky, difficult situations, especially at home.

The envisaged project measures are all the more important when one view from the perspective of the children of the socially-economically-politically excluded marginalized communities/families; also, the most vulnerable Children Affected By AIDS (CABA), children who are orphan and those from the broken families, etc.

The experience tells us that these days more emphasis is given to usual education – be it formal or training in any skill. The child is to be equipped with information skills to cope up with risky and competitive situations and how to live in a community/work in a team – without which the normal education may not help the child, settle in life. Hence, the urgency and importance of Life Skill & Sexual health Education, which these days Navajeevan emphasizes.

The children on street, children at work and children in institutional care reported the highest incidence of sexual assault. Around 60 per cent of the street children reported having undergone sexual abuse. Around 60 per cent of the street children reported having undergone sexual abuse. The experience of Navajeevan Counsellors is also not different. Sexual abuse of children by these anti-social gangs and bullies/senior children/peers are rampant. Many of these children, hence, are already infected by/prone to HIV/AIDS and other serious communicable diseases.

Life skills develop competencies and actual positive behaviours. Main Life Skills are: problem-solving; decision-making (including goal setting); critical thinking; creative thinking (including value clarification); communication skills; interpersonal skills (including assertiveness); self-awareness; empathy; coping with stress and coping with emotions.

During the reporting year, the organization has made a special emphasis to equip the children with **Life Skills & Sexual Health Education (LSE & SE)**. The first step was to organize ToTs for the staff and an eight member Resource Team on LSE was established. These LSE team members along with already existing trained members in Sexual Health under Sexual Health Intervention Programme (SHIP) at APSA-Bangalore started are imparting regularly LSE & SE to more than 1250 children in different centers of Navajeevan. The Tool Kits provided by Family Health International on LSE & APSA-SHIP on Sexual, Health have been customized for the purpose. There is plan to extend the LSE-SE to city' schools, especially for children attending local government schools. These children apart, the team also started imparting LSE&SE to children from Navajeevan's target villages under 'Child safety Net' project.

<b>Total :</b>	<b>1465</b>	<b>285</b>	<b>1750</b>	<b>100</b>

It is observed that all categories of children below 18 yrs are coming from their homes with various personal and family reasons. It is also found from the above table, 7 children are under the below age of 5 years. The highest number is found between teenage age 15-16 years, 672 children, followed by 13 to 14 years group – 375 children.

The ‘**reason-for-leaving-home**’ analysis points out that, 20% of children came away from home as they were verbally and physically abused/ neglected by parents, forced to go for work, scolded or beaten for getting less marks, stole money from home or when the alcoholic parents become unbearable. The whole stress should be on rescuing, home-integrating/rehabilitating the children fresh to the street at the earliest, along with the required attention on the old children making a living in and around Vijayawada railway station. The experience of Navajeevan is that a child home-integrated after in-depth counselling sessions, if possible also child’s parents, and again, if possible to have a village gathering while home-integrating the child, the chances of relapse to street is considerably reduced. Considerable reduction of home-integrated children coming back to street life revealed through random surveys give evidence to the fact.

About 1058 phone calls were made to the parents/relatives/friends of children and contacted about 57 police stations for the home enquiry and placement of children.

## Success story of Home Integration

### 1) RESCUE OF TRAFFICKED GIRL FROM THE CLUTCHES OF A "DANCE TROUPE"

Name of the child: Nagamani (Name changed) : Age: 15 yrs Gender: Female

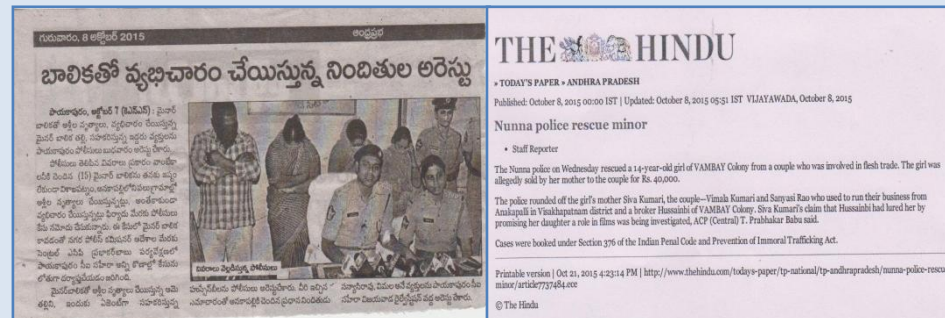

Navajeevan Street Presence Team identified and rescued a girl child along with a boy from Vijayawada Railway Station and brought both of them for to shelter for counseling.

Nagamani revealed to the Counselling Team that she is from Vijayawada but going to Anakapalli with this boy. After probing the case individually, it was revealed that the girl is indeed a native of Vijayawada living with her parents but the later she told an astonishing story saying that she studied till 7<sup>th</sup> class in a local government school, but her mother made her to quit school and sent her to work in Recording Dance Troupe to repay a their outstanding loan of Rs.40, 000/- . Nagamani used to work in that troupe and sending Rs.10,000/- once in three months to home to repay the loan. She says that still Rs.20, 000/- was due as loan, that is why Nagamani is going back to Dance Troupe to work.

With all this information, Navajeevan Counselling Team produced Nagamani before Child Welfare Committee (CWC). After verifying the case, the Committee ordered Nagamani to be placed under temporary safe custody at Prajwala Counselling Centre and further commissioned an enquiry through District Child Protection Unit (DCPU). Responding to the enquiry report from DCPU, the CWC ordered Police in Nunna Village to take immediate action on the parents of the girl and on the persons involved in Dance Troupe.

The very same day the Special Task Force Police arrested the accused and the girl's parents and another team was sent to Anakapalli, where few more children were rescued from the clutches of Dance Troupe. Police investigation into the case is still going on and an enquiry is pending with the DCPU. The girl was referred to one of the Fit Institutions for counseling and to be with children of her age so that she could come out of the trauma she had gone through. With the cooperation and coordination of the NGOs and the allied departments, Navajeevan was able to rescue a minor girl from the clutches of Human Traffickers. The relevant newspaper clipping are produced below:

### Newspaper Clippings:

## **ROUND THE CLOCK SHELTER**

***(Providing basic needs and motivation through group counseling)***

The shelter is on round the clock where the children are free to come and avail the facilities. The activities at the shelter are mostly of preparing children for home-integration, and if that not possible, for further rehabilitation process, through Pre-Camps:

What a street child most lacking after emotional support from a significant adult, is a safe and secure family like environment to rest, keep his belongings and where the child need not be afraid of anybody. Apart from basic needs, the child is to be given individual attention through individual and group counselling sessions and orient him to set goals for future course of action – either home integration or to choose other rehabilitation measures available in Navajeevan's conveyor belt – formal education or skills training after re-orientation camps, including de-addiction programme.

It is this atmosphere that a child gets through the Group Counselling Picnic Camp – consists of three Pre-Camps in small groups – of which main ingredients are Daily Group Sharing Sessions (*Hrudhaya Spandana* – means *Open Heart/Open Talk*) was conducted for one hour in the evening before going to bed – helping children to share their experiences and enhance the self-awareness process; 2 times in a week, the children taken for picnics to the nearby places, within 5 kms radius from shelter – city parks and other gardens with play ground and shady trees – planned, implemented and reviewed by children themselves; common prayer, classes on value education, Yoga, basic literacy, and Life Skills cum Sexual Health Education.

On average of 30 to 40 street boy-children availed facilities at night shelter - contact points for counseling and motivating the children for home integration, re-orientation camps (Prerana for children between 9 and 11 years & Velugu for children between 12 and 15 years & Vimukti De-addiction programme for boys addicted to substance abuse.).

During the reporting year, 25 sessions involving about 40 street based boys at Night Shelter (Vennela) were organized on Sexual Health Intervention Programme, (SHIP) in collaboration with counseling team members trained at APSA, Bangalore. **2 staff got trained as Trainers to continue the project.**

### **NIGHT SHELTER FOR OLDER BOYS:**

**Regularly an open talk/counselling programme (Individual and group counseling session)** is conducted for the older boys at Open House at Night Shelter. During the session, facilitated an **Sexual Health Programmes and Arts Based Intervention at Open House for older boys by the trained resource persons.** Bi-monthly Youth Meetings were conducted at Night Shelter with a minimum attendance of 20 boys. Weekly motivation classes are conducted on Sundays for them.

### **REORIENTATION CAMPS - PRERANA & VELUGU:**

After the Pre-Camps at the round the clock shelter, children who are not yet home-integrated, are admitted to Prerana or Velugu Reorientation camps. These month long camps consist of activities, such as, individual and group counselling sessions, yoga and common prayer, recreation and team works, short picnics, craft works, basic literacy classes, etc., to help the child to re-orient, set a goal and prepares himself to go back home, and if that not possible, to join any of the other rehabilitation measures under formal education or vocational training streams.

## ORIENTATION CAMP:

At round the clock shelter, there are two orientation camps i.e. Prerana and Velugu. Prerana is meant for children below 14 years & Velugu for children above 14 years. Those children who could not be home-integrated on an immediate basis after rescue, these orientation camps had been organized to prepare them either for home-integration or for joining formal and skills training streams if some cannot be home-integrated for various reasons or for motivating those who are addicted to various psycho-active substances like Erazex ('solution'/'box' in local jargon), marijuana, gutka, alcohol, etc., to join de-addiction camp called *Vimukthi ('Liberation')*, located on a sprawling 25 acres of mango orchard campus at Posanapalli village, Near Nuzivid 45 KMs away from Vijayawada.

During the year, the whole approach to these camps has been changed from that of one-month long camp with a sort of group-based care to one that stresses the need of individual child. The emphasis was shifted from completing the camp within four weeks to individual-child care plan as each child needs his own time to get oriented to set a goal in his life to move forward, overcoming the deprivation he suffered in the past; if not completely, but least he acquires the tools/life skills for the purpose. The time and need of a child varies. Moreover, the circumstances they got nurtured at family and on the street have also their say in fixing the time frame to overcome the difficulties and to prepare oneself for the mainstreaming. Also, the child is encouraged to come back immediately on his own in case he drops out of the camp and suffer a setback in his attempt for a positive change in life.

As per above table, everyday on an average 30 to 40 children take their 3 times meal course at round the clock shelter. During the reporting period Apr 2015 to Mar 2016, 34,375 children took their meals at Round the Clock Shelter. Out of which, 9078 are girls.

#### Activities at Round the Clock Shelter:

**All the camp inmates participated in in-depth sessions of individual and group counselling.** The counsellor records the sessions in 3P Matrix (Problems, Plans, and Priorities) format as part effective follow-up on individual basis. The underlying principle is to take care of the children in small groups whereby individual child is given attention in depth – *'child' is important not 'children'*.

**Along with information sharing sessions and value based education, Life skills education classes,** including sexual health education, were organized on a regular basis for the camp inmates. Life skills combined with Sexual Health Education (LS-SH-E) refer to a group of soft skills that promotes mental wellbeing and that leads to a healthy and productive life. Life skills develop competencies and actual behaviors. Main Life Skills are: problem-solving; decision-making (including goal setting); critical thinking; creative thinking (including value clarification); communication skills; interpersonal skills (including assertiveness); self-awareness; empathy; coping with stress and coping with emotions. The whole process is based on the concept that child as an agent, not merely a helpless victim, has the capacity to identify, analyze and address the issues affecting life and to take and implement appropriate decisions to bring in positive change – accompanied by significant adult.

Life Skills Education through ‘rights based and child participatory approach’ deals with the “whole child” - feelings, beliefs, development needs - and equips child with life skills required to make safe choices and lead healthy lifestyles. The whole process applies active learning methods including games, role plays, debates, brainstorming, drama, storytelling, group learning, case studies, poster making, etc. The training modules are developed in such a way to facilitate children to understand the issues and life skills needed thereof; relate issues to their own lives (self-awareness); practice skills in a safe and supportive environment; apply life skills in real-life situations; thinking about experiences gained; and strengthening life skills for further use.

Of late, Navajeevan has developed a **special training manual for Life Skills Education incorporating tools from ArtS Based Therapy.**

## **VIMUKTHI**

**(De-addiction Centre, Nuzivid)**

Vimukthi means – Liberation from addictions. Vimukthi is located at Polasanapalli, Nuzivid. 45 KMs away from Vijayawada. Experience of Navajeevan Street Presence team points to the latest development that most of the children, formerly addicted to Erazex sniffing solution (more than 40% as per the latest random study by the team), are now getting addicted to Petwin injection, made available by anti-social gangs and children under their hegemony, at Rs.20/-. This is now being spread not only among street children, but also, perhaps, more in number, among city’s college and school children. (Management Council of Navajeevan in consultation with the Core team resolved to extend the Street Presence areas to nearby railway stations like Guntur, Tenali, Chirala and Bapatala in the context of more children addicted to substance abuse and engaged in small anti-social activities have shifted residence to these areas). Every month new batch of de-addiction programme is conducted.

The children addicted to various psychotropic substances are identified by the street educators and they are motivated to join the month long de-addiction programme – starting with a pre-camp at round the clock shelter. After the pre-camp, a three-day LSE classes are organized as immediate preparation for the month long de-addiction camp at Vimukthi – located 45 kms away from the city (meant to help the child to be away from the availability and circumstances of substances).

This month long reorientation camp consists of activities, such as, detoxification process supervised by the medical personnel, including measures to address withdrawal syndromes, individual and group counselling sessions, yoga and common prayer, recreation and team works, physical exercises, short picnics, craft works, basic literacy classes, etc., to help the child to re-orient and overcome the addiction, set a goal and prepares himself to go back home, and if that not possible, to join any of the other rehabilitation measures under formal education or vocational training streams. Even after the de-addiction camp at Vimukthi, the child is regularly followed up to help him not to relapse.

A total number of 76 youth joined the de-addiction programme at Vimukthi during 2015-2016 and they were motivated through counseling by expert teachers, counselors etc. Out of them, 45 youth completed the course and came out and living on their own with regular jobs. Our team found them that they lead a happy life in society and some of them went back to living with their families too.

## **MEDICARE/INFIRMARY**

### **A.15.7. Medicare: Navajeevan's in-house infirmary with 20 beds:**

Navajeevan infirmary caters the need of sick children down with any disease or accident or injury and goes to any extent to treat the child. All the children with serious medical problems, beyond the capacity of infirmary, are taken to hospitals outside for Out-Patient consultation; if needed, they are admitted into the respective hospitals (with special emphasis on Government General Hospital).

Out of the total 2266 registered at Infirmary, 720 cases were admitted into Private Hospitals and 697 cases referred to Government hospitals. Out of which, 28 cases joined as Inpatients. 848 children were given first-aid at Navajeevan's infirmary.

As mentioned under "Special Cases" below, unlike in the past, these days the district administration has agreed to include the serious medical cases of street children under the **Arogyasree Scheme**, bypassing the eligibility rule of having Arogyasree card, which in turn to be obtained on the basis of white ration card meant for below poverty line category of families. Unfortunately, many of the street children, addicted to street life for long number of years, do not

have any contact with families, and hence, not enrolled in ration cards. **During the reporting period, following special cases have been registered at Infirmary.**

## II. ANTI-CHILD LABOUR & ANTI CHILD TRAFFICKING PROJECT

### **BALA VIKASA KENDRAM (BVK):**

Navajeevan has undertaken this project for working children at Autonagar, Vijayawada as an extension of its activities for street children. Following its objective of gradual eradication of child labour in the target area along with its emphasis on creating awareness among the masses about the evils of child labour and the need of educating their children, Navajeevan's team has learned a lot in strategizing to achieve the objective. Accordingly, it has evolved various activities in the project.

### **OBJECTIVES :**

- To prevent further employment of new children at Autonagar. To ensure just wage, number of working hours, safety and hygienic working conditions and to eradicate the child labour gradually from the target area - Autonagar.
- To empower the working children with skill training and Basic quality education

### **Coming down to the Vision:**

- The first objective is to prevent children entering in to the hazardous work, bring them in to streamline by enrolling them into the schools for their sustainable development and to develop the capacities to make the children self sustainable
- The second objective is to empower the presently working child, means to empower with not only the skill training and basic education, but also with an all round development, envisaged with leadership qualities, self-esteem, and a valid certificate to vouch their skills formally.

### **History of Bala Vikasa Kendram(BVK):**

Navajeevan undertook this project at Auto nagar for working children as an extension of its activities for the street children. It was with a clear vision of gradual child labour eradication in the in the target area along with its emphasis on creating awareness among the masses about the evils of child labour and the need of educating their children. A clear visible abuse of child rights is child labour. Andhra Pradesh has the undubious distinction of having the highest number of child labour in the whole of India with 3.5 million, according to 1991 'national Sample Survey'.

### **Activities:**

- BVK team daily visits the Children, Parents of the working children, Employers and Union Leaders to strengthen the rapport and communicate the children problem and create awareness on Child Rights.
- BVK has been organizing 3 literacy classes in the form of day school in BVK main center in four batches for slum children, working children, Rag picking children ,school going children and 2 Night schools in two satellite villages for the all round personality development of the working children.
- To create awareness on child issues BVK organized street play as a mass communication method to the pictorial knowledge of the villages.
- To develop advocacy with the Parents of Working Children, Employers, Gos and NGOs BVK organized workshops.
- To develop leadership qualities and initiate the concept of Balasanghas to protect their Rights BVK organized residential workshops for the working children

- During the reporting period, 348 child labour (boys-292 and girls-56) were rescued at industrial estate and major workshops in Vijayawada.
- Out of rescued 348 children, 213 children were home-integrated and living with their families happily. The remaining children were sent to different NGOs/Units for counseling / education.
- Presently, NCLP also partially support the running of a bridge school at Kankipadu village for children of tribal communities of Chenchus and Yanadis.
- The Youth Parliament members are being trained to advocate the rights of children above 15 years working in Autonagar Industrial Estate and other areas of the city. They also support the rescue activities of child workers below 14 years.
- During the reporting year, a total of 17 domestic child workers (DCW) were rescued and produced before CWC.
- There are at the moment 29 pressure groups covering 58 divisions within Vijayawada city. These groups are constituted of adult domestic workers, of the Corporation's sanitary workers, members of DWCRA (Development of Women and Children in Rural Areas), Anganwadi teachers, community elders and youth. They help the project team in identifying the CDWs, apart from organizing other project measures – such as leaflet-poster-rickshaw campaigns, street theaters and daily field presence and workshops for apartment secretaries, adult domestic workers, etc.

## Open School

As a special education programme, ‘Open School’ in a distance mode for appearing 10<sup>th</sup> class was launched at Bala Vikas Kendram (BVK), Auto Nagar, Vijayawada in the year 2008-2009(First Batch), in view of providing formal education to the rescued street children and child labour, school drop outs etc.

The main objective of Open School is to enable school drop outs and rescued children above 14 years to be eligible for higher secondary education (10<sup>th</sup> class).

The whole idea behind the Open School is to provide basic knowledge of minimum education through distance mode for those children who could not cope up, for the time being, for various reasons with the atmosphere of other rehabilitation centres within Navajeevan. These children, with special tuition are facilitated with special individual follow-up and counselling sessions.

Batch-wise open school data since its inception Apr 2008 to March 2016 is provided hereunder.

## Formal Education

(School going children/College going children)

### Formal Education & Skills Trainings:

At any point of time, the top priority is always to home-integrate the children. After the reorientation camps, the children who are not able to go back home for various reasons – orphans, broken families, serious cases of abuse/neglect by parents and family members, etc. – are admitted to Bridge Course (if needed for preparing oneself for schooling (staying in *Chiguru* - Children's Village or *Moggas* – Group Care Foster Homes or Vidya Bhavan) or vocational trainings (staying in Yuva Bhavan).

After the completion of education or skills trainings, some of the children are integrated with their families and others will be facilitated to find gainful employment in the trade they are skilled. Also, they are regularly followed up until they settle themselves in lives.

# Intervention of Fact-finding - Violation of Child Rights

Brief of some of the cases fact found and in legal follow-up

## FACT FINDING OF CHILD RIGHTS VIOLATIONS - Apr 2015 to March 2016

The project team, especially the members of the AAGs/ CPCs are trained in fact finding about cases of child rights violations in their respective villages and around, in collaboration with Krishna District Child Rights Monitoring Cell. These fact finding activities are undertaken by Child Rights Monitoring Cell (CRMC) of Krishna district - authorized by the Child Welfare Committee (CWC), and hence the related reports are submitted to the CWC for further legal - medical - social - economic support. The fact findings are gaining momentum, in collaboration with CRMC) of Krishna district under the aegis of Navajeevan Juvenile Justice Desk.

Some of the cases are given below in a consolidated format - all cases were fact found by Krishna District CRMC with CSN AAG members, facilitated by JJ DESK and authorized by Krishna district Child Welfare Committee (CWC):

**Nunna police rescue minor**

• Staff Reporter

The Nunna police on Wednesday rescued a 14-year-old girl of VAMBAY Colony from a couple who was involved in flesh trade. The girl was allegedly sold by her mother to the couple for Rs. 40,000.

The police rounded off the girl's mother Siva Kumari, the couple—Vimala Kumari and Sanyasi Rao who used to run their business from Anakapalli in Visakhapatnam district and a broker Hassambhi of VAMBAY Colony. Siva Kumari's claim that Hassambhi had lured her by promising her daughter a role in films was being investigated, ACP (Central) T. Prabhakar Babu said.

Cases were booked under Section 376 of the Indian Penal Code and Prevention of Immoral Trafficking Act.
