STREET PRESENCE PROJECT

Street Presence – Field work: The main source of field contact of children at VJA Railway Station:

The experience is that when a child is rescued at the earliest, he or she will be less addicted to street life and can be integrated with family easily. The more a child stays on the street, the more he or she gets addicted to street life, making the home integration or any other rehabilitation measures more difficult. Hence, applying the principle '**sooner the better**', utmost importance to be given for rescuing the child at the earliest, especially intensifying the coordinated rescue efforts at railway stations as more than 95% of the children travel by train after leaving home to reach different urban centers, hence, the need of intensifying the field presence in Vijayawada Railway Station is utmost important.

STREET PRESENCE RESCUE DATA - APRIL 2016 to MARCH 2017

Month	New Boys	New Girls	Old Boys (repeated)	Old Girls (repeated)	Total	%
April 2016	43	8	9	0	60	6
May	68	5	8	0	81	8

March	36	9	5	0	50	4.9
TOTAL ::	837	100	79	0	1016	100

During the reporting year (April 2016 to March 2017), Navajeevan street presence team alone, as the table above indicates, rescued **1016** (New and Old) children from the street, mostly from Vijayawada railway station. Of these, **937 (boys-837 and girls-100) were new children** – either fresh to street life or first time landing at Vijayawada Railway Station. 79 were old boys.

The following table indicates the number of children rescued or weaned away by various member organizations of Forum for Child Rights/Childline-Vijayawada from the city Railway Station during the reporting year 2016-2017. **The children rescued by Navajeevan from Railway Station, Vijayawada is 1016, as per the data maintained by Childline booth, Vijayawada Railway Station.**

Secunderabad Don Bosco	01				01	0.0
Total :	963	140	113	02	1218	100
Grand Total :	1103		115			

During the reporting period from Apr 2016 to Mar 2017, a total of **1218 (New Children: 1103 and repeated children 115)** children were weaned away/rescued and registered at Navajeevan Counselling Dept.

The children rescued from street or weaned away from street life are brought immediately to round the clock Open Shelter and provided with basic needs. They undergo in-depth counselling sessions while attending Orientation Camps organized in the shelter premises, before they are home-integrated or joined for any of the rehabilitation processes under formal education or skills training streams.

The yearly data points to the growing number of children leaving home to street. They all lack mainly a 'significant adult' in their lives to understands them and facilitate them to cope up with risky, difficult situations, especially at home.

The envisaged project measures are all the more important when one view from the perspective of the children of the socially-economically-politically excluded marginalized communities/families; also, the most vulnerable Children Affected By AIDS (CABA), children who are orphan and those from the broken families, etc.

The experience tells us that these days more emphasis is given to usual education – be it formal or training in any skill. The child is to be equipped with information skills to cope up with risky and competitive situations and how to live in a community/work in a team – without which the normal education may not help the child, settle in life. Hence, the urgency and importance of Life Skill & Sexual health Education, which these days Navajeevan emphasizes.

The children on street, children at work and children in institutional care reported the highest incidence of sexual assault. Around 60 per cent of the street children reported having undergone sexual abuse. Around 60 per cent of the street children reported having undergone sexual abuse. The experience of Navajeevan Counsellors is also not different. Sexual abuse of children by these anti-

social gangs and bullies/senior children/peers are rampant. Many of these children, hence, are already infected by/prone to HIV/AIDS and other serious communicable diseases.

Life skills develop competencies and actual positive behaviours. Main Life Skills are: problem-solving; decision-making (including goal setting); critical thinking; creative thinking (including value clarification); communication skills; interpersonal skills (including assertiveness); self-awareness; empathy; coping with stress and coping with emotions.

During the reporting year, the organization has made a special emphasis to equip the children with **Life Skills & Sexual Health Education (LSE & SE)**. The first step was to organize ToTs for the staff and an eight member Resource Team on LSE was established. These LSE team members along with already existing trained members in Sexual Health under Sexual Health Intervention Programme (SHIP) at APSA-Bangalore started are imparting regularly LSE & SE to more than 1600 children in different centers of Navajeevan. The Tool Kits provided by Family Health International on LSE & APSA-SHIP on Sexual, Health have been customized for the purpose. There is plan to extend the LSE-SE to city' schools, especially for children attending local government schools. These children apart, the team also started imparting LSE&SE to children from Navajeevan's target villages under 'Child safety Net' project.

Status of NEW CHILDREN registered at Counseling department

DURATION ON THE STREET - NEW CHILDREN

Duration on the street	Boys	Girls	Total	%
Below 1 week	924	133	1057	95.8
1-4 weeks	39	7	46	4.18
Total	963	140	1103	100

A total of children rescued during 2016-2017 is 1103 (963 boys & 140 girls). The above table shows that the children rescued between 0 to 7 days – 1057 and between 1st and 4 weeks – 46 children of their street-life.

WHAT NEW CHILDREN EXPECT FROM NAVAJEEVAN

Expectation	Boys	Girls	Total
Help to go home	554	91	645
Basic Needs	307	12	319
Shelter / Work	48	37	85
Educational Support / Vocational Training	52	0	52
Medical Support	2	0	2
Total	963	140	1103

After counseling, most of the children wished to go home. About 645 out of 1103 integrated with family. NJBB provided educational support and vocational training courses to 52 children who didn't wish to go home. Basic needs were provided to 319 children. 85 children wished to stay in shelter and find some work till their final integration.

DISTRICT-WISE CHILDREN DATA IN A.P. & TELANGANA

Other States	165	33	198	18
Not Known	2	0	2	0.2
TOTAL	963	140	1103	100

Out of 1103 new children from the states of Andhra Pradesh and Telangana, 310 children were from Navajeevan's home-district of Krishna; followed by 192 children from Guntur and 61 children from West Godavari district.

Parental Status	Boys	Girls	Total
Both parents	720	101	821
Orphan	70	10	80
Only Father	47	7	54
Only Mother	43	8	51
Broken Family	82	14	96
Step Mother	1	0	1
Total	963	140	1103

Of 1103 rescued children, 821 children have both parents, whereas 80 children are orphan. All children rescued in 2016-17 were available to reveal their parental information, which was not the case during 2015-16.

Children's Caste	Boys	Girls	Total
Schedule Caste	196	26	222
Schedule Tribes	151	36	187
Backward Caste	321	44	365
Not known	161	18	179
Other Caste	134	16	150
Total	963	140	1103

Here, mostly the rescued children belong to Backward Caste (BC), the lion share of 365 occupied by them followed by SC-222 children and ST-187 children.

Religion	Boys	Girls	Total
Hindu	793	125	918
Muslim	64	2	66
Christian	104	12	116
Not Known	2	1	3
Total	963	140	1103

918 belong to Hindus, 66 belong to Muslim Community and 116 belong to Christianity and 3 children did not divulge their religion.

Educational Status	Boys	Girls	Total
Illiterate	165	22	187
1 st to 3 rd Class	23	11	34
4 th to 6 th Class	115	20	135
7 th to 9 th Class	389	43	432
10 th to 12 th class (Intermediate)	271	44	315
Total	963	140	1103

Out of 1103 children, it is found that 187 children are completely illiterate; Majority of the children are studying classes between 7th and 9th. The percentage of illiterate children came down drastically from 2015-16.

Age	Boys	Girls	Total	%
Below 5 years	2	2	4	0.4
6-8 years	42	12	54	4.9
9-10 years	44	15	59	5.4
11-12 years	118	10	128	12
13-14 years	325	28	353	32
15-16 years	354	44	398	36
17-18 years	73	26	99	9
19 and above	5	3	8	0.7
Total	963	140	1103	100

It is observed that all categories of children below 18 yrs are coming from their homes with various personal and family reasons. It is also found from the above table, 4 children are under the below age of 5 years. The highest number is found between teenage age 15-16 years, 398 children, followed by 13 to 14 years group – 353 children.

The ‘reason-for-leaving-home’ analysis points out that, 20% of children came away from home as they were verbally and physically abused/ neglected by parents, forced to go for work, scolded or beaten for getting less marks, stole money from home or when the alcoholic parents become unbearable. The whole stress should be on rescuing, home-integrating/rehabilitating the children fresh to the street at the earliest, along with the required attention on the old children making a living in and around Vijayawada railway station. The experience of Navajeevan is that a child home-integrated after in-depth counselling sessions, if possible also child’s parents, and again, if possible to have a village gathering while home-integrating the child, the chances of relapse to street is considerably reduced. Considerable reduction of home-integrated children coming back to street life revealed through random surveys give evidence to the fact.

Reasons for leaving Home		Boys	Girls	Total	%
City Attraction	Came Along With The Friends	84	11	95	8.64
	Came for City/Temple/Rivers	136	1	137	12.5

	Afraid of Parents/Relatives/Others	2	0	2	0.18

	Beaten by Parents/Relatives/Others	79	2	81	7.36
	Broken family	12	0	12	1.09
	Came for Parents/Relatives/Others	61	4	65	5.91
	No one to take care	4	0	4	0.36
	Scolding by Parents / Relatives	24	3	27	2.45
	Searching For A Job	97	28	125	11.2
	Semi Orphan	2	0	2	0.18
	Not Interested In Home	16	3	19	1.73
	Step Parents Problem	1	0	1	0.09
Missing Children	came along with Brother/Sister	26	10	36	3.27
	Missed the route / Travel	1	0	1	0.09
Poor Economic Condition	Economically Poor Family	7	0	7	0.64
	Theft	157	44	201	18.3
Special Reasons	Begging	5	0	5	0.45
	Sexually Abused	33	0	33	3
	Lost his money and ticket	6	0	6	0.55
	Love affair	38	29	67	6.09
	Forced to do work	1	0	1	0.99
	Orphan	3	0	3	0.27
	Want to Study/ Go Home	53	0	53	4.82
Working Problem	Coming from Work Place	64	4	68	6.18
Total		963	140	1100	100

The above classification clearly shows that 18.67% (208 children) of the total children contacted were came for work due to their poor economic condition. 83 children came out from their houses due to beaten by parents/relatives. 232 children came to see city/temples and river. This shows that there is immense pressure on the children to be employed.

HOME INTEGRATION REPORT – April 2016 to March 2017

(Home Integration from different centres of NJBB – Children rejoined with their families)

Sl. No	Particulars of Home Integration	Boys	Girls	Total
1	Number of children home integration by staff	33	13	43
2	Number of children home integration by Parents	625	74	699
3	Number of children home integration by self after contacting parents	17	0	17
4	No of Children Home Enquires	95	37	132
OTHER CONTACTS				
1	No of Phone Contacts to parents/relatives of the child	635	79	714
2	Call Back received from parents relatives of the child	625	74	699
3	No.of police station contacts	31	06	37
4	Call Back received form Police	12	0	12

About 714 phone calls were made to the parents/relatives/friends of children and contacted about 37 police stations for the home enquiry and placement of children.

Success Stories of Home Integration

- Susiya aged 17 years was found at the Vijayawada Railway Station along with a boy by NJBB staff. After enquiry, she revealed that she only had a father and her mother had unfortunately passed away a while back. She belongs to Tamil Nadu and is unable to converse in Telugu. With immense difficulty the staff was able to piece together her story. She had left her home without informing her father with a boy. She had trusted the boy to get her a job and had come along with him. She had left her home five days prior to the date she was found. The boy had abandoned her at the station. Her father was contacted and was called to the shelter. She was successfully placed at her home after appropriate counseling.
- Niranjan Gouse alias Mohan ran away from his home without informing anybody. He was rescued and taken to a shelter in Hyderabad. He was reluctant at first as he was used to being in the streets. He was living in the shelter consequently for a period of about five years whereupon; he was shifted to another shelter. After such shifting, he was unhappy with the environment there and was unable to adjust. He again ran away from the shelter. The Police then found him at the Vijayawada Railway Station and handed him over. He had reached Vijayawada by train after running away from the shelter. The only information he was able to give upon enquiry was that he belonged to Nagar Kurnool and certain whereabouts there. He was not able to remember his exact details due to the fact that he had been away from his home for quite a while. He also, revealed that he had left his home as he was an orphan. The Police did a wide enquiry based on such information. After extensive search by the Police, they were able to locate his elder brother. The elder brother revealed that their parents had passed away unfortunately in such time period in which Mohan was missing. He had been living with his elder brother and had run away from there. After contacting the elder brother, proper counseling was done. Both Mohan and his elder brother were happy to have reconciled.

After requisite counseling of both Mohan and his elder brother, he was successfully placed at home under the guardianship of his elder brother.

- Penki Kalyani aged 16 years was found roaming the Vijayawada Railway Station by NJBB Staff members. She was initially reluctant to reveal any information. She said that she had left home and had come searching for a job with a boy. The boy is unrelated to her and his whereabouts are unknown. Her father is alive but had abandoned the family around three years ago. Her mother is also alive but she at first did not give her number. Subsequently, she gave her mother's details based on which the police conducted the requisite search and enquiry. They were able to locate her mother. When contacted, her mother was harrowed by her daughter's behavior and seemed reluctant to take her daughter back home. Subsequently, both were appropriately counseled. The mother was coaxed and the girl was placed home successfully.

ROUND THE CLOCK SHELTER

(Providing basic needs and motivation through group counseling)

The shelter is on round the clock where the children are free to come and avail the facilities. The activities at the shelter are mostly of preparing children for home-integration, and if that not possible, for further rehabilitation process, through Pre-Camps:

What a street child most lacking after emotional support from a significant adult, is a safe and secure family like environment to rest, keep his belongings and where the child need not be afraid of anybody. Apart from basic needs, the child is to be given individual attention through individual and group counselling sessions and orient him to set goals for future course of action – either home integration or to choose other rehabilitation measures available in Navajeevan's conveyor belt – formal education or skills training after re-orientation camps, including de-addiction programme.

It is this atmosphere that a child gets through the Group Counselling Picnic Camp – consists of three Pre-Camps in small groups – of which main ingredients are Daily Group Sharing Sessions (***Hrudhaya Spandana*** – means ***Open Heart/Open Talk***) was conducted for one hour in the evening before going to bed – helping children to share their experiences and enhance the self-awareness process; 2 times in a week, the children taken for picnics to the nearby places, within 5 kms radius from shelter – city parks and other gardens with play ground and shady trees – planned, implemented and reviewed by children themselves; common prayer, classes on value education, Yoga, basic literacy, and Life Skills cum Sexual Health Education.

On average of 30 to 40 street boy-children availed facilities at night shelter - contact points for counseling and motivating the children for home integration, re-orientation camps (Prerana for children between 9 and 11 years & Velugu for children between 12 and 15 years & Vimukti De-addiction programme for boys addicted to substance abuse.).

During the reporting year, 25 sessions involving about 40 street based boys at Night Shelter (Vennela) were organized on Sexual Health Intervention Programme, (SHIP) in collaboration with counseling team members trained at APSA, Bangalore. **2 staff got trained as Trainers to continue the project.**

NIGHT SHELTER FOR OLDER BOYS:

Regularly an open talk/counselling programme (**Individual and group counselling session**) is conducted for the older boys at Open House at Night Shelter. During the session, facilitated an **Sexual Health Programmes and Arts Based Intervention at Open House for older boys by the trained resource persons**. Bi-monthly Youth Meetings were conducted at Night Shelter with a minimum attendance of 20 boys. Weekly motivation classes are conducted on Sundays for them.

REORIENTATION CAMPS - PRERANA & VELUGU:

After the Pre-Camps at the round the clock shelter, children who are not yet home-integrated, are admitted to Prerana or Velugu Reorientation camps. These month long camps consist of activities, such as, individual and group counselling sessions, yoga and common prayer, recreation and team works, short picnics, craft works, basic literacy classes, etc., to help the child to re-orient, set a goal and prepares himself to go back home, and if that not possible, to join any of the other rehabilitation measures under formal education or vocational training streams.

ORIENTATION CAMP:

At round the clock shelter, there are two orientation camps i.e. Prerana and Velugu. Prerana is meant for children below 14 years & Velugu for children above 14 years. Those children who could not be home-integrated on an immediate basis after rescue, these orientation camps had been organized to prepare them either for home-integration or for joining formal and skills training streams if some cannot be home-integrated for various reasons or for motivating those who are addicted to various psycho-active substances like Erazex ('solution'/'box' in local jargon), marijuana, gutka, alcohol, etc., to join de-addiction camp called **Vimukthi ('Liberation')**, located on a sprawling 25 acres of mango orchard campus at Posanapalli village, Near Nuzivid 45 KMs away from Vijayawada.

During the year, the whole approach to these camps has been changed from that of one-month long camp with a sort of group-based care to one that stresses the need of individual child. The emphasis was shifted from completing the camp within four weeks to individual-child care plan as each child needs his own time to get oriented to set a goal in his life to move forward, overcoming the deprivation he suffered in the past; if not completely, but least he acquires the tools/life skills for the purpose. The time and need of a child varies. Moreover, the circumstances they got nurtured at family and on the street have also their say in fixing the time frame to overcome the difficulties and to prepare oneself for the mainstreaming. Also, the child is encouraged to come back immediately on his own in case he drops out of the camp and suffer a setback in his attempt for a positive change in life.

Shelter Data for the year of APRIL 2016 to MARCH 2017																						
Name of Orientation Camp	No. of Children (Boys)			Home placements			Dropouts			Sent to Camps			Within the Organization			Sent to GOs & NGOs			Remaining			
	New	Old	Total	New	Old	Total	New	Old	Total	New	Old	Total	New	Old	Total	New	Old	Total	New	Old	Total	
PRERANA (children between 6 to 14 years)	443	40	483	336	24	360	24	5	29	15	1	16	3	1	4	7	3	10	54	10	64	
VELUGU (children between 15 to 18 years)	420	60	480	301	18	319	20	12	32	39	3	42	3	1	4	2	7	9	55	19	74

As the table above indicates, of the 963 children (863 NEW children and 100 OLD children), 483 children admitted to Prerana Orientation Camp and 480 children admitted in Velugu Camp.

During the reporting period, about 61 children were dropped out from the camps. 679 were home-integrated; 58 sent to Vimukthi (de-addiction) centre; 8 were admitted to various other Navajeevan centres; 19 children to other NGOs for further rehabilitation process.

Children's Meals details in shelter April 2015 to March 2016

Month	No. of children took their meal at Shelter				
	Breakfast	Lunch	Supper	Total	%
April 2016	516	780	604	1900	6.3
May	701	1180	867	2748	9.1
June	686	1037	1013	2736	9.1
July	808	1095	866	2769	9.2
August	1099	1155	1150	3404	11.3
September	658	780	769	2207	7.3
October	699	898	727	2324	8

March	709	821	695	2225	7.3
Total:	8858	11363	9694	29915	100

- As per above table, everyday on an average 20 to 30 children take their 3 times meal course at round the clock shelter. **During the reporting period Apr 2016 to Mar 2017, 29,915 children took their meals at Round the Clock Shelter.**

Activities at Round the Clock Shelter:

All the camp inmates participated in in-depth sessions of individual and group counselling. The counsellor records the sessions in 3P Matrix (Problems, Plans, and Priorities) format as part effective follow-up on individual basis. The underlying principle is to take care of the children in small groups whereby individual child is given attention in depth – *'child' is important not 'children'*.

Along with information sharing sessions and value based education, Life skills education classes, including sexual health education, were organized on a regular basis for the camp inmates. Life skills combined with Sexual Health Education (LS-SH-E) refer to a group of soft skills that promotes mental wellbeing and that leads to a healthy and productive life. Life skills develop competencies and actual behaviors. Main Life Skills are: problem-solving; decision-making (including goal setting); critical thinking; creative thinking (including value clarification); communication skills; interpersonal skills (including assertiveness); self-awareness; empathy; coping with stress and coping with emotions. The whole process is based on the concept that child as an agent, not merely a helpless victim, has the capacity to identify, analyze and address the issues affecting life and to take and implement appropriate decisions to bring in positive change – accompanied by significant adult.

Life Skills Education through 'rights based and child participatory approach' deals with the "whole child" - feelings, beliefs, development needs - and equips child with life skills required to make safe choices and lead healthy lifestyles. The whole process applies active learning methods including games, role plays, debates, brainstorming, drama, storytelling, group learning, case studies, poster making, etc. The training modules are developed in such a way to facilitate children to understand the issues and life skills needed thereof; relate issues to their own lives (self-awareness); practice skills in a safe and supportive environment; apply life skills in real-life situations; thinking about experiences gained; and strengthening life skills for further use.

Of late, Navajeevan has developed a **special training manual for Life Skills Education incorporating tools from Art Therapy**. During the reporting year, Navajeevan conducted the following LSE Classes for the benefit of children to build their goals in life. As part of capacity building, the desk conducted Life Skills Education (LSE) classes during the reporting period. 395 members (Male-107 and Female 288) got trained in the LSE classes.

MEDICARE/INFIRMARY

Medicare: Navajeevan's in-house infirmary with 20 beds:

Navajeevan infirmary caters the need of sick children down with any disease or accident or injury and goes to any extent to treat the child. All the children with serious medical problems, beyond the capacity of infirmary, are taken to hospitals outside for Out-Patient consultation; if needed, they are admitted into the respective hospitals (with special emphasis on Government General Hospital).

Month-wise out-patient and in-patient children data for the year 2016 – 2017

Month	Children referred to Private Hospitals		Children referred to Government Hospitals		Children in Infirmary for first aid	Total
	Outpatient	Inpatient	Outpatient	Inpatient		
April' 16	16	1	18	1	25	61
May	10	0	16	3	18	47
June	18	0	12	0	17	47
July	6	2	5	0	41	54
August	9	0	12	0	31	52
September	8	0	8	0	17	33
October	7	0	10	1	35	53
November	12	2	5	0	30	49
December	5	1	8	1	27	42
January 2017	5	0	13	1	27	46
February	4	0	11	0	33	48
March	4	0	6	0	15	25
Total ::	104	6	124	7	316	557

Out of the total 557 registered at Infirmary, 110 cases were admitted into Private Hospitals and 131 cases referred to Government hospitals. Out of which, 7 cases joined as Inpatients. 316 children were given first-aid at Navajeevan's infirmary.

As mentioned under **"Special Cases"** below, unlike in the past, these days the district administration has agreed to include the serious medical cases of street children under the **Arogyasree Scheme**, bypassing the eligibility rule of having Arogyasree card, which in turn to be obtained on the basis of white ration card meant for below poverty line category of families. Unfortunately, many of the street children, addicted to street life for long number of years, do not have any contact with families, and hence, not enrolled in ration cards. **During the reporting period, following special cases have been registered at Infirmary**

List of Special cases – 2016-2017

Sl. No.	Date	Name of the child	Age	Gender	Child referred by	Disease	Hospital details		Cost of treatment

								Total ::	353100	160600	192500

As the Table above indicates during the reporting period, a total number of 14 Special Cases had been admitted to and got treated in various hospitals. Out of the total costs of **Rs.3, 53,100/-**, Navajeevan spent **Rs.1, 92,500** from the resources available and got a concession or mobilized the remaining **Rs.1, 60, 600/-**; from the concerned hospitals where children were treated, including Aarogyasree Scheme, etc. Currently, apart from the main infirmary at Yuva Bhavan, two more small infirmaries are in function at Chiguru (children's village) and at 5 Moggas in Pezzonipet with a view to providing effective and prompt medical support for children.

List of children month-wise admitted into infirmary with various diseases for medical help- 2015-16

TOTAL ::					557

- The table shows that during the reporting period 13 cases of TB admitted in infirmary. They have been referred to TB centre.
- The stated increasing admissions of VIRAL FEVER cases at infirmary is also a reflection of the increasing number of cases reported for various reasons from other parts of the State as well as country at large.

MEDICAL CAMPS:

- 21/4/2016 & 22/4/2016 took 50 children of NJBB for Dental Medical Camp at Pinnamaneni Siddhardha College
- On 21st and 22nd May Dr. Prasanna lakshmi gave awareness to children in summer camp at chiguru
- Dr. M. N. Raju and Team, Sandhya Eye Hospital organized free medical eye camp for camp children at Chiguru on 22nd May.

Individual Follow-Up of Children Accommodated at Homes/Hostels Under the Aegis of Navajeevan:

Apart from providing the immediate counselling sessions for around 280 children monthly on an average, rescued and registered with counselling department at shelter, mostly by Navajeevan's Street/Field Presence teams from Vijayawada railway station, Autonagar Industrial Estate and other parts of the city, and by Child Safety Ne Project (CSN) team from village/slum communities in and around Vijayawada, and those referred to by Child Welfare Committee (CWC), the Counselling team members have to do individual follow-up of **178 children/youth (111 boys and 67 girls)** accommodated in various homes/hostels under the aegis of Navajeevan and receive full support.

During the reporting period, a total number of **55 children enrolled** in three vocational courses (*Electrician/Plumbing, Carpentry and Two Wheeler Mechanism*) conducted by Navajeevan Bala Bhavan at Pezzonipet, Vijayawada. Out of which, 18 children have been successfully completed their respective courses and 21 home placed and 3 children have been dropped out. 28 children are continuing their courses in the next batch too.

VIMUKTHI

(De-addiction Centre, Nuzivid)

Vimukthi means – Liberation from addictions. Vimukthi is located at Polasanapalli, Nuzivid. 45 KMs away from Vijayawada. Experience of Navajeevan Street Presence team points to the latest development that most of the children, formerly addicted to Erazex sniffing solution (more than 40% as per the latest random study by the team), are now getting addicted to Petwin injection, made available by anti-social gangs and children under their hegemony, at Rs.20/-. This is now being spread not only among street children, but also, perhaps, more in number, among city's college and school children. (Management Council of Navajeevan in consultation with the Core team resolved to extend the Street Presence areas to nearby railway stations like Guntur, Tenali, Chirala and Bapatala in the context of more children addicted to substance abuse and engaged in small anti-social activities have shifted residence to these areas). Every month new batch of de-addiction programme is conducted. The children addicted to various psychotropic substances are identified by the street educators and they are motivated to join the month long de-addiction programme – starting with a pre-camp at round the clock shelter. After the pre-camp, a three-day LSE classes are organized as immediate preparation for the month long de-addiction camp at Vimukthi – located 45 kms away from the city (meant to help the child to be away from the availability and circumstances of substances).

This month long reorientation camp consists of activities, such as, detoxification process supervised by the medical personnel, including measures to address withdrawal syndromes, individual and group counselling sessions, yoga and common prayer, recreation and team works, physical exercises, short picnics, craft works, basic literacy classes, etc., to help the child to re-orient and overcome the addiction, set a goal and prepares himself to go back home, and if that not possible, to join any of the other rehabilitation measures under formal education or vocational training streams. Even after the de-addiction camp at Vimukthi, the child is regularly followed up to help him not to relapse.

Month	No. of children received at Vimukthi during the year – 2016-2017			Parental Status of the children						Placements of the Children during Apr to Mar 2017

During the report reporting period, about **78 youth** joined de-addiction programme at Vimukthi and they were motivated through counseling by expert teachers, counselors etc. Out of them, **40 youth** completed the course and came out and living on their own with regular jobs. The remaining children at the end of Mar 2017 is 22 children. Our team found them very happy and some of them went back to live with their families too.

ANTI-CHILD LABOUR & ANTI CHILD TRAFFICKING PROJECT

BALA VIKASA KENDRAM (BVK):

Navajeevan has undertaken this project for working children at Autonagar, Vijayawada as an extension of its activities for street children. Following its objective of gradual eradication of child labour in the target area along with its emphasis on creating awareness among the masses about the evils of child labour and the need of educating their children, Navajeevan's team has learned a lot in strategizing to achieve the objective. Accordingly, it has evolved various activities in the project.

OBJECTIVES :

- To prevent further employment of new children at Autonagar. To ensure just wage, number of working hours, safety and hygienic working conditions and to eradicate the child labour gradually from the target area - Autonagar.
- To empower the working children with skill training and Basic quality education

Coming down to the Vision:

- The first objective is to prevent children entering in to the hazardous work, bring them in to streamline by enrolling them into the schools for their sustainable development and to develop the capacities to make the children self sustainable
- The second objective is to empower the presently working child, means to empower with not only the skill training and basic education, but also with an all round development, envisaged with leadership qualities, self-esteem, and a valid certificate to vouch their skills formally.

History of Bala Vikasa Kendram(BVK):

Navajeevan undertook this project at Auto nagar for working children as an extension of its activities for the street children. It was with a clear vision of gradual child labour eradication in the in the target area along with its emphasis on creating awareness among the masses about the evils of child labour and the need of educating their children. A clear visible abuse of child rights is child labour. Andhra Pradesh has the undubious distinction of having the highest number of child labour in the whole of India with 3.5 million, according to 1991 'national Sample Survey'.

Activities:

- BVK team daily visits the Children, Parents of the working children, Employers and Union Leaders to strengthen the rapport and communicate the children problem and create awareness on Child Rights.
- BVK has been organizing 3 literacy classes in the form of day school in BVK main center in four batches for slum children, working children, Rag picking children ,school going children and 2 Night schools in two satellite villages for the all round personality development of the working children.
- To create awareness on child issues BVK organized street play as a mass communication method to the pictorial knowledge of the villages.
- To develop advocacy with the Parents of Working Children, Employers, Gos and NGOs BVK organized workshops.
- To develop leadership qualities and initiate the concept of Balasanghas to protect their Rights BVK organized residential workshops for the working children

- During the reporting period, 231 child labour (boys-187and girls-44) were rescued at industrial estate and major workshops in Vijayawada. Out of rescued 231 children, 155 children were home-integrated and living with their families happily. The remaining children were sent to different NGOs/Units for counseling / education.
- There are at the moment 29 pressure groups covering 58 divisions within Vijayawada city. These groups are constituted of adult domestic workers, of the Corporation's sanitary workers, members of DWCRA (Development of Women and Children in Rural Areas), Anganwadi teachers, community elders and youth. They help the project team in identifying the CDWs, apart from organizing other project measures – such as leaflet-poster-rickshaw campaigns, street theaters and daily field presence and workshops for apartment secretaries, adult domestic workers, etc.

✓ The number of candidates in Running Batch	0
✓ The number of candidates on Job placement	0
✓ The number of candidates on own work who completed the course	0
✓ The number of candidates on skills upgradation after completion the course	59

Success Stories:

DB Tech Chandranna Cheyutha

Success Story of R.Sowjanya

Name :R.Sowjanya.

Employer :Bhavana Beauty Parlour

Designation :-Beauty therapist

I am young heart from Vijayawada one of the trainees being trained at DB Tech (Vijayawada) in Batch 1.It is one of the Navajeevan DB Tech center; Vijayawada is a placement linked skill development initiative for training and placement of youth. The project envisions support for the youth of by providing them vocational training linked to placement in various sectors like ITeS, Customer Service, Sales and Hospitality etc. I successfully completed my training in the Assistant Beautician Domain. Initially, while taking admission to the course, I was a bit hesitant to choose the domain and even faced some difficulties during the training, but gradually realizing the usefulness of the training,I started appreciating my decisio. I used to perform activities with lot of interest and enthusiasm.my attitude throughout the training programme was really positive and my parents are also convinced about me taking training in the Beautician domain. Soon after 45 days of training, I got the chance for placement in Bhavana Beauty Parloul At Vijayawada at a monthly remuneration of Rs. 4000.I was exceedingly happy to get placed in such a Parloul and thanked the complete staff of DB Tech with a sense of satisfaction.While speaking about her Father, Sowjanya’s Father, Mr.Srinivasa Rao said, “I am extremely happy to listen to the news of the placement of my Daughter. I feel proud to be her Father.” After having achieved her dreams, Sowjanya expressed, “I belong to a very poor family, I had never thought that would be here someday. This is like a golden opportunity for me.A heartfelt thank to all the contributors who has made my life meaningful.

DB Tech Chandranna Cheyutha

Name :K.Anusha.

Employer :Apple Beauty Parlour

Designation :-Beauty Therapist

Myself is the only daughter in my family and was very disappointed when I had to discontinue my studies due to financial restraints in my family. My father is a Tails Company labourer who receives only a meager amount of wage with which it can be used only for family's daily expenditure and basic necessities of the household. I was disheartened to see my friends continuing their studies while I was desperately looking for a job to help her family. One fine day I went to know about DB Tech (Vijayawada, Andhra Pradesh) and when I learned about the placement and career opportunities after the completion of the course I was overjoyed. I immediately jumped to grab the opportunity to enroll myself in the Beautician course at the DB Tech taking my younger Brother along with me. This was the first step in my journey towards securing a decent life for me and my family. My Father was extremely happy with her decision and felt relieved with whatever help I was able to contribute in improving the financial position of the family's. After my course I got her placement in Floras Well Ness at Vijayawada with Rs.4500/-. Now as I am able to help my family financially. She says, "DB Tech has brought happiness into my family, and I am indeed very happy that I am able to do something for my parents who struggled and sacrificed so much for us. I can say that after the training in DB Tech, through the concept of life skills I got a second turn in my life towards bright career. I have empowered the skill of living with self-confidence".

Success Story of Sindhu

Name :L.Sindhu.

Employer :Hema's Beauty parlour.

Designation :-Beauty therapist- I belong to the family who lives in Christurajapuram (Vijayawada) and has 5th members in my family. As the head of the family, My father Mr. Prakash took the responsibility of all family, who works as a daily wage labourer (Painter). Being grown up, I understand her responsibility and thus wants to do something to provide a better living to the family. But all her attempts fail for a number of reasons. One such day, when I was trying to look for some source of income for the family, I came across one of the staff members of DB Tech (Vijayawada), who was indulged in the mobilization activities in the village. It was then that she came to know about DB Tech training programme being offered by DB Tech in partnership with Nava Jeevan. Knowing that the program offers free of cost 45 days training along with the placement at the successful completion of the training, my happiness knew no bound. I was much convinced to join the programme right away. Next day, I visited DB Tech (Vijayawada) and gave the interest inventory and was admitted to the batch 01. I started up with the training quite seriously, I used to be punctual not only for the class but also at completing assignments on time. I completed her training. After the training, now it was the turn of placement, Don Bosco Tech arranged for an interview for her at the place locally in the Vijayawada. As per everyone's expectations I cleared up the interview and got the job at Rs. 4000 per month. On getting the job she stated happily, "I am really happy today, if I would not have undertaken this training, I would be of no use for my family, I would have been sitting idle at home. I thank Don Bosco Tech for giving me the real life." Her parents were even happier, her father alleged, "this is the happiest day of my life ever, I am proud of my daughter. The credit for all this goes to DB Tech that has launched such a programme for the poor and marginalized youth."

**This data does not include all the details of the benefits facilitated for the marginalized families by AAGs and village facilitators under various government schemes.*

Sl. No.	Nature of the Case	Referred to	No. of Children			Placements/Follow up			Remarks, if any
			Boy/Male	Girl/female	Total	Boy	Girl		
1	Rescue of Child Workers/Out of School Children	Child Welfare Committee (CWC)	Rural 01 Urban 04	Rural 01 Urban 02	08	Navajeevan Chiguru: 02 Local Schools: 02 Govt. Hostels: 1 Home Integration: Others NGOs - Children from ETC Centes Passed 10 th Class=22	Navajeevan Chiguru: 04 Local Schools: 04 Vasavya: Govt. Hostels: 1 Govt. Children Home: Govt. College: Children from ETC Centes Passed 10 th Class=34	-----	
2	Prevention of child marriage – 2 cases	In collaboration with Hitahishi – Navajeevan. Referred to Child Welfare Committee (CWC) & Women and Child Welfare Dept		Rural 01 Urban 01	02	1) At Yenamalakuduru – 15 years girl – completed 9th class. 2) At Poranki – 16 years girl Kanuru – studying 10th class 3) At Kanuru – the girl aged 14 years studying 9 th class 4) At Ganguru – the girl aged 15 years studying 10 th class 5) At Penamaluru – the girl aged 15 years studying 10 th class 6) At payakapuram the girl aged 16 years passed 10 th class		The 5 cases were identified by the members of the CPs , and they in turn referred to AAGs, and later took up the AAGs, and the performance of the marriage was prevented in collaboration with the respective CDPO of the Women and Child Welfare Dept. and CWC, with support from the local police	
3	Cases of Domestic Violence Cases of child trafficking Pregnancy – minor girl Surrender of	In collaboration with Hitahishi – Navajeevan. Referred to Child Welfare Committee (CWC) & Women and Child Welfare Dept; also, too the support of the local police		Rural -17 Urban -09	26			<ul style="list-style-type: none"> Members of Children’s Parliaments and Adult Activists Groups, continue their support in identifying cases of domestic violence of the respective village. The identified cases were handed over to Navajeevan Hitahishi Desk – advocating the rights of women and girl victims of sexual and other forms of violence, and being followed up in collaboration with Women & Child Welfare Dept. and local police. In the 34 cases of domestic violence, 5 trafficking cases had to be referred to Women and Child Welfare Dept./NCLP. 11 cases are solved through counselling the couple and the other family members. Trafficking cases are handed over to NCLP department for further follow up. The orphan child was surrendered to CWC through CDPO of Women and Child Welfare Dept when their 	

	orphan children to CWC –					grandmother was not able to look after them
4	Children Affected By AIDS (CABA) identified by CPs & AAGs	Neethodu - Navajeevan	Rural-22 Urban -13	Rural -11 Urban -09	55	All 55 cases handed over to Neethodu Desk – providing care and support, referral service, and advocating their rights
	Education support to CABA	AAGs and CPs - in collaboration with Neethodu - Navajeevan				The eligible candidates from among CABA were selected in consultation with the CPs and AAGs. Navajeevan mobilized resources. Out of the total 214 children, 190 children are affected ones (102 boys and 88 girls) & 24 (12 boys and 12 girls) are infected by HIV/AIDS. By providing technical and financial support to the closely related couple or relatives of children whose both parents died or the surviving infected parent is not in a position to render parental care CABA, kinship foster care is being encouraged. The AAGS and village facilitator play a very important role in the process.
	Nutrition support for CABA families	AAGs and CPs - in collaboration with Neethodu - Navajeevan				The eligible candidates from among CABA families were selected in consultation with the CPs and AAGs. Navajeevan mobilized resources.
5	Facilitation of Orphan Certificates by the members of Adult Activists Groups and Village Facilitators	In collaboration with Neethodu project team for care and support for CABA				
6	Joining Vocational Training – unmarried girls and boys above 15 years, separated young mothers, etc.	Livelihood Advancement Skills Trainings (LAST) - Navajeevan	Rural-05 Urban -00	Rural -316 Urban -116	437	The adolescent girls are referred to the following vocational courses at Bala Vikasa Kendra, Auto Nagar, Vijayawada. Tailoring – 222 Beautician – 182 Computer – 33 During the reporting period, 437 adolescent youth enrolled in LAST programmes held at BVK Centre in Tailoring, Beautician and Computer courses.
Total Beneficiaries:			45	483	528	
7	Mobilization of local support by the members of CPs, AAGS and village facilitators	During the reporting year, for effective running of ETCs – Apr 2016 to Mar 2017, a total of cash Rs.47, 000/- was locally mobilized and in the form of kind Rs.25,225/- was collected for teachers honorarium and the kind such as rent for hall (where the community halls were not available), electricity, black-boards, note-books, stationery, etc. Altogether, we got donation in the form cash and kind is Rs. 72,225/-.				
8	Youth Parliament	<ul style="list-style-type: none"> As part of CSN, a Youth Parliament is in function at Autonagar Industrial Estate, consisting of Child Workers above 15 years. The members are trained in child rights, especially their rights at the work place and also in life skills cum sexual health. The objective is to enable them to advocate their rights by themselves with the employers and address rights violation in collaboration with the AAGs. Formed a Youth Club at BVK Centre for the children above 15 years working in Industrial Estate, Auto Nagar, Vijayawada. They will have monthly meetings at our premises and discuss their work spot problems. Navajeevan provides space for them for their meetings. 				

9	Fact finding of child rights violations	<ul style="list-style-type: none"> The project team, especially the members of the AAGs/ CPCs are trained in fact finding about cases of child rights violations in their respective villages and around, in collaboration with Krishna District Child Rights Monitoring Cell. These fact finding activities are undertaken by Child Rights Monitoring Cell (CRMC) of Krishna district - authorized by the Child Welfare Committee (CWC), and hence the related reports are submitted to the CWC for further legal – medical – social – economic support. The fact findings are gaining momentum, in collaboration with CRMC) of Krishna district under the aegis of Navajeevan Juvenile Justice Desk.

NEETHODU

(Neethodu means "We are with you")

(A PROJECT DESIGNED FOR THE AFFECTED/INFECTED BY HIV/AIDS)

Care and Support for CABA and their Parents Living with AIDS (Since October 2009 to Mar 2016)

Navajeevan started the Neethodu desk in October 2009 for the care and support of the affected/infected by HIV/AIDS. Navajeevan encourages kinship fostering by rendering technical and financial support to a closely related couple or relatives to provide foster care to a child both of whose parents died or when the surviving infected parent is not in a position to render parental care.

Total ::	67	61	128	4	4	8	71	65	136

So far, till the reporting period, we have received 136 numbers of orphan certificates from the District CDPO, Krishna district.

BI-MONTHLY NUTRITION SUPPORT TO AFFECTED/INFECTED FAMILIES

Supplementary Nutrition Support: Apart from infected children, infected adults (males & females) were given supplementary nutrition support on bi-monthly basis. The eligible candidates from among CABA (Children Affected/Infected By AIDS) families were selected in consultation with the local volunteers/CPs and AAGs. Funding: Most of the funding for Neethodu project for CABA is being mobilized by 'Friends of Navajeevan – Austria' – a fraternity constituted of former Navajeevan volunteers from Austria and their friends.
